## **Koenig Iron Works** New York City, NY March 2014 - Feb 2018

Director of Miscellaneous Metals

- Managed the architectural metal division of a steel contractor.
- Worked closely with our in-house project managers.
- Managed the overall operations, deadlines, communications...etc for my division.
- Managed the steel detailing team and checked all erection and shop drawings before sending them to customers.
- worked closely with architects and engineers to solve any design issues.
- Managed and coordinated the entire submittal and approval process.
- Estimating and purchasing tasks.
- Ensuring projects are running according to the planned budget.
- Hiring Subcontractors when necessary.
- Representing the company in meetings with EORs and Architects.

## **Paramount Steel** Houston, TX 2012 - March 2014

Head of Steel Detailers/Project Manager/Checker

- Managed a team of Steel Detailers.

- Checked complicated erection and shop drawings for structural & miscellaneous steel designs using Bluebeam, AutoCAD, Tekla & Advance Steel Autodesk.
- Worked/coordinated closely with customers, architects, structural engineers, sub-contractors, estimators, field engineers and field supervisors to solve projects-related issues, answer RFIs, ensure a smooth submittal process , coordinate with engineers to provide engineering stamps, meet deadlines...etc.

**Ohio Gratings Inc, Texas Office** Houston TX 2010 - 2012

Steel Detailer/Project Manager

Prepared erection and shop drawings for industrial & commercial steel designs (Structural & Miscellaneous) using the most recent versions of AutoCAD & Advance Steel Autodesk.

- Organized and guided project operations throughout the course of the project.
- Managed multiple projects at one time.
- Prepared packing lists, cut lists & advanced bills of materials.

**CAD Drafter at Berger Iron Works** Houston TX July 2007 to August 2010

Steel Detailer/Drafter

- Prepared steel architectural and structural erection drawings for all types of buildings and shop drawings. From standard miscellaneous metal products – I.E.: stairs, pipe rails, shelf angels, pipe bollards etc., to more exotic stainless steel, bronze, and aluminum architectural metals , monumental stairs, ornamental rails, custom canopies and more.
